

# TRAINING MADE EASY

NRCA's **Hands-On Training Plan** portal offers ready-to-use plans that focus on simple commercial roofing fundamentals—the essential skills students need first.

Each plan features clear **written assignments** and **short videos**

built from the NRCA's student competition mockup, ensuring classroom learning ties directly to **real-world practice**.

Students learn by doing, **building confidence** and **understanding of materials, methods** and quality workmanship through **hands-on** experience.

Teachers and contractor mentors get structured, **step-by-step guidance** that fits any schedule—ideal for shop time, after-school sessions or co-taught lessons with industry partners.
